

PERFORMANCE ACCELERATOR

Performance Consulting
METHODOLOGY OVERVIEW

A woman with dark hair tied back, wearing a white blazer over a white top, is speaking and gesturing with her hands. She is holding a blue marker in her right hand. In the background, a whiteboard has handwritten notes in blue ink, including "Focus / How busy / own business" and "independent". In the foreground, there is a table with a white mug, a glass of water, and an open notebook with a pen.

Accelerate performance and improve results by increasing alignment, cohesion, engagement, and accountability.

Focus and align the management team on the critical strategic point for business breakthrough

- » Change the next level of leaders in an intense 2-3 day syndicate for breakthrough execution
- » Align the key actors to solve critical problems and produce a 90-day action plan
- » Create space by unloading pet projects and programmes
- » Define solutions and make decisions 'on-the-spot'
- » Relentless monitoring, checkpoints and reporting back to decision makers

“

Very well done, the process of getting the three most important things for the subcategory of the syndicate was thorough. Total buy-in.

PRE-WORK	WORKSHOP	EXECUTION
Define the situation and high-level breakthrough area	Expert facilitation (for large groups we use Covision Facilitation Tools)	Absolute personal responsibility
Map the key players	Interrogation of reality	Team and decision makers' communication and feedback protocols
Assign sponsors, process owners and decision makers	Small group syndicates with predefined focus questions	Communication platform (we recommend Convo® for best results)
Assemble key facts, insights and data-points	Develop breakthrough strategies	30, 60, 90-day detailed action plan and reporting milestones
Thorough briefing and induction of key players	Unloading, deselecting, prioritising and ranking report out templates	Communicate relentlessly
Design workshop agenda	On-the-spot decision making	Celebrate successes
Develop syndicate teams	Commitment to action	Make rapid course corrections if new understanding occurs

Performance Accelerator Method

See the Whole Picture

Interrogate reality. What's really going on? What are the key facts and data points? What haven't we seen before?

Discover the Right Question

What's the critical factor that holds the key to all others? What is the question we need to answer?

Describe Breakthrough

What is our vision of success? What could breakthrough look like in the next 3-6 months? Describe it in concrete terms.

What is Your Understanding of This Situation?

Identify the barriers or challenges and the root cause of the contradiction.

Which individual or company has overcome a situation like this before? What did they do? How did they do it? Take lessons from history.

What is Our Key Strategy to Breakthrough in This Situation?

What are the critical sequenced elements of a plan-to-win in this situation?

Define the Action Plan

What are the essential action ingredients or components of this strategy?

What - How - Who - When? What choices and decisions are required to approve this plan? Whose buy-in is essential to execute this plan? How do we secure it?

“

Amazing results in a very short time.

“

Impressive what a small group of relevant and knowledgeable people can achieve in 4 to 5 hours.

“

Intensive. Fast decision making process led to total buy-in.
